Research papers

Influence of hydrological and climatic parameters on spatial-temporal variability of fluorescence intensity and DOC of karst percolation waters in the Santana Cave System, Southeastern Brazil
F. W. Cruz Jr., I. Karmann, G. B. Magdaleno, N. Coichev and O. Viana Jr 1
A conceptual model of volume-change controls on the hydrology of cutover peats
G. W. Kennedy and J. S. Price 13
Parameter estimation for leaky aquifers using the extended Kalman filter, and considering model and data measurement uncertainties
H. D. Yeh and Y. C. Huang 28
Uncertainty in the calibration of effective roughness parameters in HEC-RAS using inundation and downstream level observations
F. Pappenberger, K. Beven, M. Horritt and S. Blazkova 46
Hydrodynamic and morphodynamic response to river engineering documented by fixed-discharge analysis, Lower Missouri River, USA
N. Pinter and R. A. Heine 70
Nondestructive high-resolution visualization and measurement of anisotropic effective porosity in complex lithologies using high-resolution X-ray computed tomography
R. A. Ketcham and G. J. Iturrino 92
DEM-based modelling of surface runoff using diffusion wave equation
M. K. Jain and V. P. Singh 107
On the physical meaning of retardation factor and velocity of a nonlinearly sorbing solute
M. A. Mojid and H. Vereecken 127
Rainfall generated stormflow response to clearcutting a boreal forest: peak flow comparison with 50 world-wide basin studies
F. Guillemette, A. P. Plamondon, M. Prévost and D. Lévesque 137
Investigating surface water-well interaction using stable isotope ratios of water
R. J. Hunt, T. B. Coplen, N. L. Haas, D. A. Saad and M. A. Borchardt 154
Comparison of data-driven Takagi–Sugeno models of rainfall–discharge dynamics
H. Vernieuwe, O. Georgieva, B. De Baets, V. R. N. Pauwels, N. E. C. Verhoest and F. P. De Troch 173
Isotopic approach of rainfall and groundwater circulation in the volcanic structure of Tahiti-Nui (French Polynesia)
A. Hildenbrand, C. Marlin, A. Conroy, P.-Y. Gillot, A. Filly and M. Massault 187
Calibration of a land surface model using multiple data sets
M. F. McCabe, S. W. Franks and J. D. Kalma 209
Inundations in the Mamoré basin (south-western Amazon—Bolivia) and sea-surface temperature in the Pacific and Atlantic Oceans
J. Ronchail, L. Bourrel, G. Cochonneau, P. Vauchel, L. Phillips, A. Castro, J.-L. Guyot and E. de Oliveira 223
Simulation and downscaling models for potential evaporation
C. Yang, R. E. Chandler, V. S. Isham, C. Annoni and H. S. Wheater 239
Interaction between shallow groundwater, saline surface water and contaminant discharge at a seasonally and tidally forced estuarine boundary
S. J. Westbrook, J. L. Rayner, G. B. Davis, T. P. Clement, P. L. Bjerg and S. J. Fisher 255
Synoptic-scale climate patterns associated with rainfall $\delta^{18}O$ in southern Australia
P. C. Treble, W. F. Budd, P. K. Hope and P. K. Rustomji 270
Flood frequency regionalisation—spatial proximity vs. catchment attributes
R. Merz and G. Blöschl 283
Hybrid moving block bootstrap for stochastic simulation of multi-site multi-season streamflows
V. V. Srinivas and K. Srinivasan 307
